## Statement

Investeren in up-to-date medische technologieën en systemen, met de daaraan gebonden kwaliteitsbewaking en opleiding, optimaliseert de efficiëntie van de gezondheidszorg.

Investir dans des technologies médicales et des systèmes up-to-date, avec la surveillance de la qualité et la formation qui y est liée, optimalise l'efficience des soins de santé.

## Missie

Het vertegenwoordigen van de medische technologieën bij alle belanghebbenden om zo de essentiële rol en de toegevoegde waarde van onze industrie in de gezondheidszorg te ondersteunen.

## Mission

Représenter le secteur des technologies médicales auprès de tous ceux qui sont concernés et ainsi soutenir le rôle essentiel et la valeur ajoutée de notre industrie dans le secteur des soins de santé.

## Vision

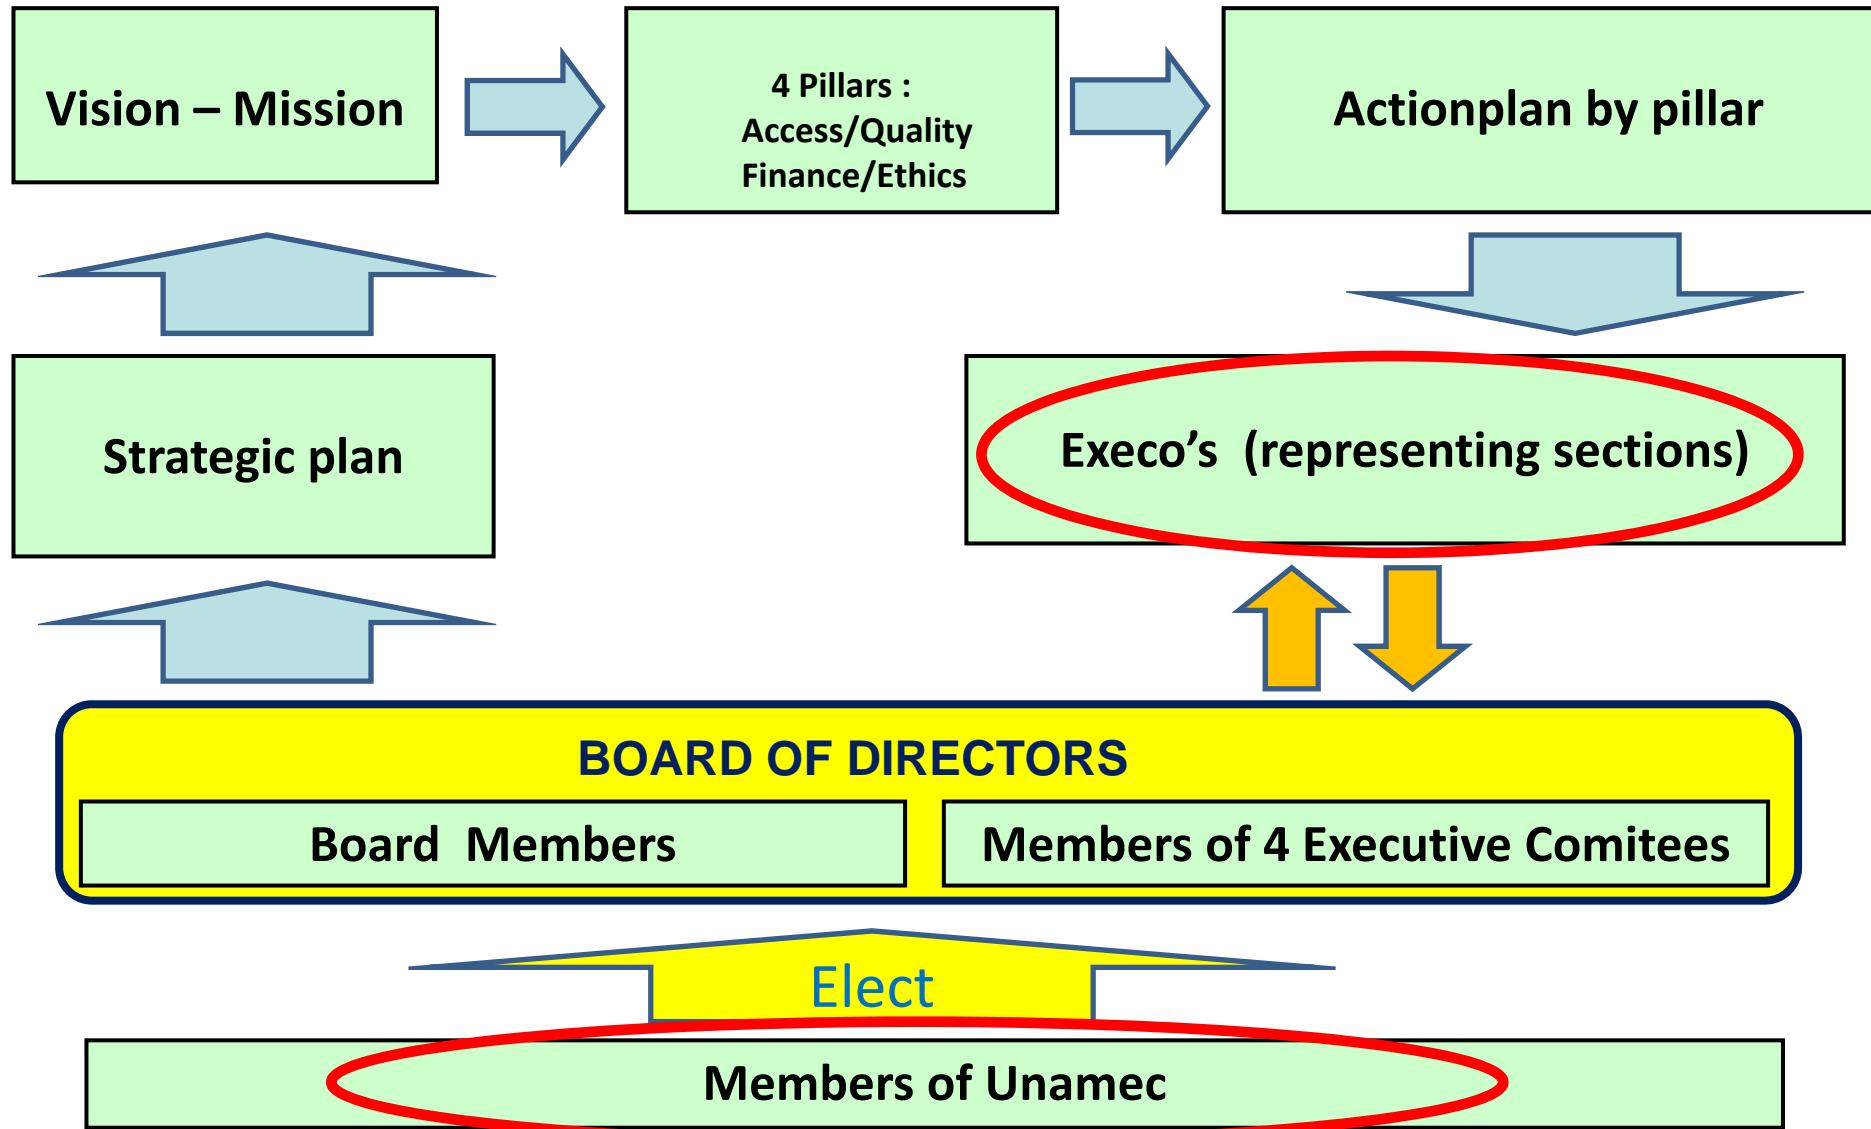

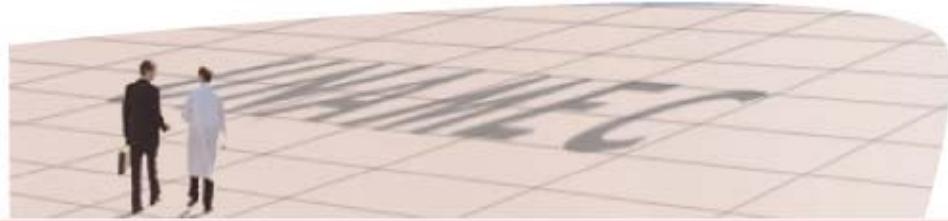

*Unamec remplit son rôle de partenaire en participant en permanence et de manière proactive à l'évolution des soins de santé en Belgique.*

## Visie

Unamec vervult haar rol als partner door permanent en pro-actief bij te dragen tot de evolutie van de gezondheidszorg in België.

## Challenges – External

- ◆ Unamec & other stakeholders : common principles.
- ◆ Objective: Support implementation of Unamec's strategic plan
- ◆ Operating Principles

### ① Cultivate Relationships

*Do decision makers who count know Unamec?*

Ensure that officials in position to influence our markets know Unamec, understand our products, and have an interest in the business success of our members in Belgium

### ② Develop Trust

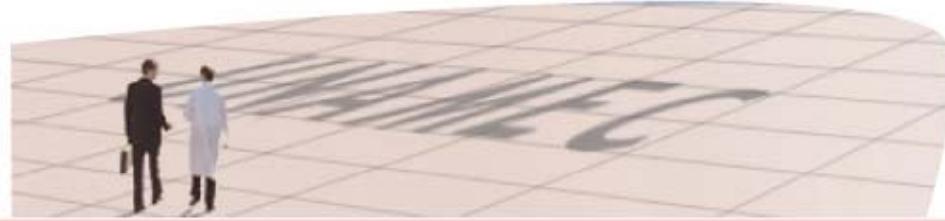

*Do they trust Unamec?*

Ensure ongoing, consistent engagement with government officials at multiple levels, positioning Unamec in their minds as a committed stakeholder and partner in the health care community

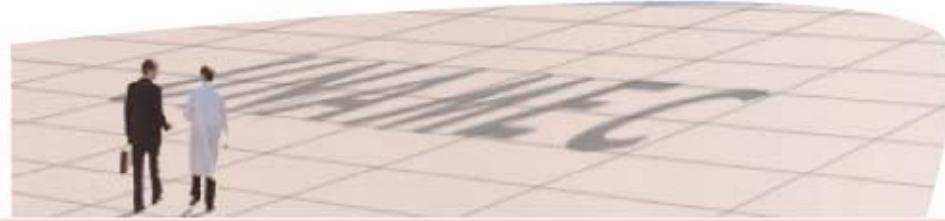

### ③ Leverage Information

*Do we know what they are thinking?*

Ensure that Unamec's strategies are informed by the best intelligence available on policy decisions, and the discussions behind those decisions
